

BUSINESS DEVICES THAT ARE A CLASS APART

ThinkBook combines the style and user experience of consumer devices with the security and business-class support of ThinkPad.

ThinkBook 16p G2 ACH

Smarter
technology
for all

Lenovo

This thin and light 16" notebook is built for new-gen business professionals who need to stay productive from anywhere in the new normal. The latest generation AMD Ryzen™ mobile processors and NVIDIA® GeForce® RTX graphics can handle everything from running design applications to multitasking. Users can switch between performance modes – to conserve battery or drive extreme performance – with a simple keyboard shortcut. MIL-SPEC tested build and enhanced battery-life make it ideal for remote use.

REASONS TO BUY

Smart features include the ability to power on the device instantly by flipping the lid, improve video resolution for enhanced video playbacks, AI-based noise-cancellation for disruption-free VoIP calls, customizable performance modes and a dedicated hot-key to access Lenovo support services quickly.

The 188PPI, 2.5K LCD display ensures the images are detailed and everything on the screen is of the highest quality. There's also optional factory colour calibration certified by X-Rite.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
